

Out of sight shouldn't mean out of mind.

Groundwater is not an endless supply. Help use our resource efficiently.

Did you know...

it can take centuries for rain to replenish a groundwater aquifer so that we may use it again? That's why we must conserve our current groundwater supply.

You can help by...

using a WaterSense-labeled showerhead or toilet.

Thank you for doing your part to help ensure that our community and neighboring communities have a clean and reliable water source now and for future generations!

For more information, visit www.epa.gov/WaterSense.
