Agenda

I. CDOT Reprogramming Request

CDOT has requested the transfer of CMAQ funds from its Jackson/State platform project to the Grand/State Station project (the request is enclosed for committee members). Non-CMAQ funds originally programmed for the Jackson Park Improvement Project on the CTA Green Line will be used for the Jackson/State project. These funds must be programmed by May 30, 2001 or they may revert to the FTA. Any additional funds required for both Grand/State and Jackson/State will be covered by the Operation GreenLight component of Illinois FIRST.
